Extraordinary Hash Trash 2019-21

The Year and a half of Cyclone Tracy

12 June 2019—20 January 2021

“...not a year on which I shall look back with undiluted pleasure... it has turned out to be an ‘Annus Horribilis’ “

Cyclone Tracy leaves Lakeside devastated

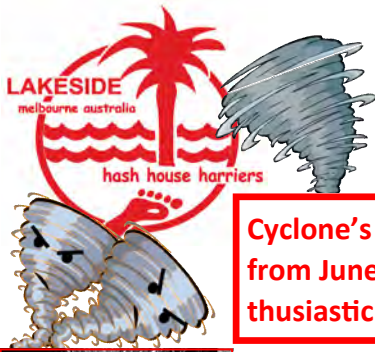

“I predicted and survived Cyclone Tracy so the Lakeside GM’ship should be a breeze. What could possibly go wrong?”

'Completely wrecked'

Severe GM Cyclone Tracy

By world standards, Tracy was small but intense...

Tracy was so strong she bent a railway signal tower in half.

### Grand Mistress Report— 2019-2021 Cyclone Tracy

Well, Lakesiders – it has been quite a ride. My year (and then some) started benignly enough at the – 2019 AGPU when the older, wiser and crustier – Astro Boy - passed on to me the GM'ship, the coat and the hat. Then with a smile and a flourish – and a liberal sprinkling of his very best wishes he was gone. A novice GM with an ace committee. **What could possibly go wrong?**

**Udder Idjit** admirably stepped up to the plate as Sgt at Arms. His keen eye has meant no misdemeanour has gone unnoticed and his quick wit and sharp tongue ensured that none went unpunished in the circle. His true love and partner in crime – the lovely **Gargoyle** – applied her true school-marmish skills to HashCash and she has not only guarded the tin with her life but has also managed to keep the books balanced.

**Kokup** – a man who truly knows his grog and is able to carry heavy slabs and eskies and keep track of the heavies, the lights, the red, the white, the soft, the water and the sugar free. – with minimal whingeing - ably took control as Grog Master.

**Astro Boy** kept his hand in as his trusty helper and Religious Advisor and his she-who-must-be-obeyed – the formidable **Cut Loose**, kept as all uniformly clad in hash gear as Hash Haberdash.

**Prince** kept us all on our toes as Trail Master with the runs organised well in advance and no special runs going by un-noticed or un-celebrated.

**Point Post** has done a sterling job as Hash Scribe maintaining a true and honest record of any and all public humiliations.

**Egg and Bacon Pie**- Lakesides very own social butterfly and the only person who can be depended upon to know every hashers name and probably also their mother hash – has kept us all entertained, and with absolutely no chance for boredom as Social Secretary.

**Swingers**- our very own computer whiz has managed to keep the e-wheels spinning and the web pages full of useful information as Web Master.

**Cheesecake** has managed to keep us all on the compliance straight and narrow as our Official Hash Secretary – despite our very best efforts at procrastination she has managed to make sure we head into the next GM's reign honest.

**Codpiece**, I'm afraid, failed miserably as Hash Flash – started pleasingly well but absconded to Sydney before her skill was finely honed.

It has been an interesting year and a half – one like no other– in the words of our intrepid leaders – these are unprecedented times- but we are coming to the end of them (hopefully) and I offer my sincere thanks to all the committee for any contributions throughout the time.

## LAKESIDE HASH HOUSE HARRIERS Extraordinary Hash Trash 2019-21

The Cyclone Tracey GM'ship is likely to be remembered as one of ups and downs. Some of the highlights include:

- Cup Day BBQ in Dromana
- The 2019 Christmas party – hosted again by Udder and Gargoyle and by many of us enjoying a hit of tennis – I wonder if we ever found E&B'S tea towels?
- The combined Australia Day run was a big hit
- The Balls up was cancelled – but it is planned for this year
- Codpiece and Old Boar organised a weekend away on the Murray – and promptly announced they were moving to Sydney
- We managed a 2020 Christmas Picnic run on our home territory
- I got experience writing and re-writing Covid Safe plans (building a new skill set)
- The winery bike hash just pipped it in before the lockdowns
- We managed runs as the lockdowns were ramping up and the ramping down – without breaking the law – special thanks to Klingon and Pog for organising
- We all got to be experts at zoom

There were lots of special runs – most of them we have managed to celebrate already – others are waiting until we are all back together.

(I can't list them now – I don't have the book – you know who you are).

We have all experienced the last many months differently and many Lakesiders have stepped up and managed keep things going throughout 2020 – it is important that the club has stayed intact – everyone has stayed safe and healthy and we all live to run another day

Well, what a year it has been. We started off so promising with joy in our hearts and wings on our feet looking at our fellow hashers and working out which one of us was going to get the biggest roasting for the year. Alas, it wasn't to be. We spent up big in the first part of the year and then dwindled down to no action in the accounts. So here goes.

### Governance Report—Cheesecake

Have you ever spent 15 minutes looking for your reading glasses only to find them perched on the end of your nose?

Have you ever shopped at Southland, returned to your car and couldn't understand why the remote locking device wouldn't unlock your white late model Honda? You click, click away with no result, so figuring it's the battery you insert old fashioned key in old fashioned lock, but still no joy. Slowly it occurs that yours may not be the only white late model Honda in the world. You ease to the back of the car and see a reggo which isn't yours, so you furtively look right and left hoping no one is watching you and is now laughing their intestines inside out. You casually saunter across to your own car which you've now spotted in the next parking bay.

Have you ever inserted a can of Campbell's soup in the microwave and blown up the house?

I've done all of these things (well, not the last one – yet).

Nonetheless you can all rest easy in your beds at night knowing I'm the official hash contact for Consumer Affairs Victoria (CAV). When HMAS LSH needed a sober, level headed, sensible and safe pair of hands to steer the club through those choppy governance waters everyone else got out of the way sharpish and I was left standing there. My main responsibility is to ensure that our annual CAV registration is up to date and to lodge our annual report and financial statements.

By being registered as an Incorporated Association with CAV, LSH members and office bearers are protected against personal liability for the organisation's debts, of which we currently have none. It means LSH is a separate legal entity and we can enter contracts with suppliers, which we often do when hosting a Balls Up or a Christmas Party or our many commemorative events. So there...

## Social Sex Report—Egg & Bacon Pie

What a year that wasn't a year. It was a year and a half and let's hope that we can get back to normal hashing and drinking with no masks and no distancing soon. Gosh... remember the old days of running, sweating, flirting (last century) and cavorting and having all that fun. We even drank from the same Down-Down mugs! Heaven forbid that now! Things will never be the same. Lucky I'm old now and the only flirtations are towards Coochieman.

Events of the year and a half have included:

the 2019 Christmas party and run from Udder's tennis club in Dromana;

the annual Combined Australia Day Run - it was our turn to arrange in 2020 during the worst bushfires and all proceeds went the CFA;

Klingon's 1,000th Run from The Local in Port Melbourne;

COVID zooms;

...and the 2020 Christmas picnic run organized by Cheesecake and Back Again.

Special runs were organized by the individuals—

namely Lubang Oz's 80th birthday in November 2019; and NickelB's 80th birthday in March 2020.

*On On to 2021  
E&B*

Lakeside Walkers did some walks together prior to COVID lockdowns. The Bayside Breakaway group did some imaginative & entertaining zooms during Lockdown. And the Lakeside Liberation Lockdown Hashers kept up their exercise while remaining physically distanced in between the lockdowns, and then as soon as restrictions eased fellow Lakesiders eventually joined them..

It's so great to see combined hashers from Melbourne and Canberra meeting up every year to taste wine and ride bikes. Also great to have hashers come who don't want to ride, just to enjoy the good times. We just scraped this one in before lockdown: our last chance for a long time to really let it rip and have a great time.

## For Cyclone Tracy – our Lakeside Hurricane (To the tune of 'Hurricane' by Bob Dylan)

### Ode to Cyclone Tracy— by Mummies Boy

A news flash rang out on a Hash-run night  
Enter Linda Anderson-Berry from the bar-room hall  
She sees the newsreader talking in fright  
He cries out, "Covid-19's killed them all!"  
Here comes the story of our Hurricane  
'Cyclone Tracy' - the hashers gave her that name  
But there's somethin' that she never done  
Got locked down in Epping, but one time she could-a been  
an actual GM at a run!

Three hashers on a reccy does a Toorak flat-owner see  
And another man named GG, movin' around mysteriously  
"I didn't set no run, " he says, and he throws up his hands  
"I was only signin' the register, I hope you understand!"  
"I saw you laying trail", the bloke says, and he stops  
"I'd better go and call up the cops."  
And so this fella calls the cops  
And they arrive on the scene with their red lights flashin'  
In the hot South Yarra night

Meanwhile, far away in another part of town  
Whippet and a couple of friends are jogging around  
Liberation hashers at a midnight down-down  
Had no idea what kinda shit was about to go down  
When a cop pulled them over to the side of the road  
"Not heard about the curfew?" "You're out too late"  
In Sandringham that's just the way things go  
If you're in Lakeside you might as well not show up on the street  
'Less you want to draw the heat

Whippet had two partners on the lookout for the cops  
Him and Pog and Klingon were just out prowlin' around  
A bloke said, "I saw three men runnin' out, they looked like Lakeside mates  
They jumped into a white car with NSW plates."  
But Ms Linda Anderson-Berry just shook her head and said 'No!  
And stressed, "Wait a minute, boys, they're not ours though"  
So they checked up with D & E  
And though they were three parts cut and could hardly see  
They told them that they could identify the guilty hares

Four in the mornin' and they haul Klingon in  
Take him to the station and they bring him upstairs  
The D&E Hasher looks up through his one bleary' eye  
Says, "Wha'd you bring him in here for? He ain't the guy!"  
Yes, here's the story of our Hurricane  
We call her Cyclone Tracy, that's her given Hash name  
But there's somethin' that she never done  
Got locked down in Epping, but one time she could-a been  
an actual GM at a run!

## LAKESIDE HASH HOUSE HARRIERS Extraordinary Hash Trash 2019-21

Four months later, the suburbs are quiet and still  
 Old Boar's up in Sydney, doing laps on his treadmill  
 While Pog and Whippet and Klingon are still in the trail-setting game  
 And the cops are puttin' the screws on, lookin' for somebody to blame  
 "Remember that On In that happened in a bar?"  
 "Remember you said you saw the Grogmaster load up his car?"  
 "You think you'd like to play ball with the law?"  
 "Think it might-a been that hasher that you saw runnin' that night?"  
 "Don't forget we know you're Lakeside."

Lethal and GG said, "We're really not sure."  
 Cops said, "Retired blokes like you could use a break"  
 We got you for the East Bentleigh run and now we're talkin' to your friend HoorayCO  
 Now we don't wanna have to issue a fine, be nice fellows  
 You'll be doin' society a favour  
 Lakeside runners are brave and gettin' braver  
 We want to charge their asses with a stir  
 We want to pin this triple on-back on Botak Chin  
 He ain't no Gentleman Jim."

Cooch could set a run in an hour after lunch  
 But he never did like to talk about it all that much  
 It's my leisure-time, he'd say, and I do it for play  
 And when it's over I'd just as soon cycle home on my way  
 Back to E&B and my North Richmond paradise  
 Where the needles prick your ankles though the air is fairly nice  
 And ride my bike along the Yarra trail  
 But then they made him stay inside the house  
 Where they try to turn a man into a mouse

All of Klingon's runs were marked in advance  
 But the trail was a dog's-breakfast, he never had a chance  
 'Cos Kok-up made KO's checks point the wrong way  
 To the walkers who watched he was a cunning bugger  
 And all the runners gave a knowing snigger  
 And though they could not produce the chalk  
 The R.A. said he was the one who did the deed  
 And the absent committee agreed

Cyclone Tracy sorely tried to keep us inside  
 Her crime was to hurt no-one, but guess who complained?  
 Enter Andrew Bolt and he baldly mansplained  
 And his newspaper, it went along for the ride  
 He said, how can the life of every man  
 Be in the palm of Dictator Dan's hand?  
 To see him obviously framed  
 Couldn't help but make me feel ashamed to live in a land  
 Where journalism is a game

Now all the Zoom-attendees in their shirts and their hats  
 Are free to drink martinis while their jokes fall flat  
 Still Tracy sits marooned in her northern home  
 An innocent GM with only the lounge to roam  
 At least that's the story of our Hurricane  
 But it won't be over till they let Cyclone out  
 And give her back the runs she's lost  
 Locked down in Epping, but one time she could-a been  
 A Grandmaster at an actual Hash!

**Some funnies—just to break it up a bit...**

A guy walks into a lingerie shop to buy his girlfriend some sexy knickers. He asks the shop assistant “Are these pants satin?”. The assistant says “No, they’re brand new.”

Same man: his girlfriend is really upset because her dog has just died. He says to her “oh, don’t be upset. I’ll get you an identical one.” And she howls and throws something at him saying “well what would I want two dead dogs for?”

Same man again, wanted to get his young niece something for Christmas so he asked his sister what the kid was interested in. She said she’s into Frozen stuff. So the bloke bought her some frozen chips and peas. The kid wasn’t impressed.

Same bloke had a tough week so he bought himself a new mattress so he could get a better night’s sleep. He bought memory foam. Now it’s trying to blackmail him.

As a child, he was made to walk the plank; they couldn’t afford a dog.

He then went on a Positive Thinking Course. He said it was Shit. And he knew it would be.

The importance of punctuation:  
Then he went to the doctor to find out how to lose weight. The doctor said to him just don’t eat anything fatty. The bloke questioned him and asked “oh, you mean don’t eat pies, chips and that sort of thing?”. The doctor said “No. I mean don’t eat ANYTHING, Fatty.”

And now it's time to announce the ...

new Committee for January to July 2021 (not much has changed)

**Egg & Bacon Pie (EnB)** - Grand Master again—until 14 July 2021 (hopefully a little more laid back this time)

Oh heavens! You say. Here I am way back in 2001 when I was previously GM, and known to some as *"The Control Freak"*.

The first thing I want to draw your attention to, as your new GM, is that this small, skeleton committee is only in "power" until the next AGM, which will be on **Wednesday 14th July 2021.**

**Point Post**—this was when he was my Hash Cash back in 2001. Now—Grog Master - Until 14 July 2021

**Pythagorarse**—Trailmaster and Assistant GM —until 14 July 2021

**Swingers**—Webmaster

**Cheesecake**—from way back when I was GM in 2001 and she was Social Sec... those were the days. Now—Governess Secretary

**Gargoyle**—Hash Cash—seen here back in 2011 when she was caught cajoling with Old Boar

This is a skeleton committee compared to other years. All other roles will be replaced under the next GM in July. In the meantime, be prepared for a tap on the shoulder for your help in the circles and anything else. Its up to you all to make the hash work.
